

Operation Trishul: Strategic Air Defense Protocol

OPERATION NETRA SHAKTI: STRATEGIC CYBER DEFENSE INITIATIVE

1. PURPOSE & SCOPE

This confidential directive specifies operational cryptographic attribution protocols for defense document distribution. All recipients must adhere to the following security measures.

2. FORENSIC WATERMARK NOTICE

Every decryption session of this document is dynamically bound to recipient identity, cryptographic hardware nonces, and time-stamped location data. Any unauthorized redistribution is traceable.

3. STRATEGIC TARGET SUMMARY

Critical defense assets are protected under quantum-resistant encryption (ML-KEM/ML-DSA) and distributed forensic watermarking. All data is stored in secure, air-gapped environments.
